

MGT-1220

CLASS II POWER SUPPLY

12VAC 20VA Class II Power Supply

FEATURES

- Input: 120V 60Hz
- Output: 12VAC ~ 20VA
- Class II power supply
- 2nd ground prong
- Two screw terminal output
- Individually boxed
- LED AC power input indicator
- UL and cUL listed

HOW TO ORDER

- **MGT-1220**
12VAC 20VA Class II power supply

DESCRIPTION

The MGT-1220 is a rugged and durable plug-in Class II power supply that converts standard 110-120VAC, 60Hz, input into 12VAC, 20VA output. It has a two-blade plug and two screw terminal output. An LED indicates AC power input. Listings include UL and cUL. The MGT-1220 is ideal for a wide range of applications and devices requiring reliable 12VAC power up to 20 VA (20 watts or 1.67 amps). Individually boxed.

MGT-1220 CLASS II POWER SUPPLY

SPECIFICATIONS

- Input voltage: 120VAC 60Hz 30W
- Output voltage: AC 12V
- Tolerance: +/-5%
- Rated current: 1666mA
- No load voltage: AC 15V Max
- Primary rated current (Ip): 240 mA Max. at input 120 VAC 60Hz with output current 1666mA
- Insulation test: 500 VDC 100 M Ω
- Normal operating temperature at: -10°C ~ +40°C
- Storage Temperature: -20°C ~ +70°C
- Normal operating humidity at: 30% ~ 85% R.H.
- Net weight (Approx.): 422g
